

STANTON FRIEDMAN

CAPTURED! INTERVIEW QUESTIONS

1. How is it that a nuclear physicist is co-authoring a book about a UFO abduction?
2. Do you really believe that aliens are visiting Earth and abducting people?
3. Don't the laws of physics prove that trips between the stars are impossible?
4. Why are you convinced that the home base for the aliens who abducted the Hills is a planet around one of the two stars Zeta 1 or Zeta 2 Reticuli?
5. Is there anything special about those two stars?
6. Are you really convinced that the US government has covered up a massive amount of data about UFOs? Why have they done so?
7. Do you discuss the Hill case in your lectures around the world? What is the reaction?
8. What do you say to those who claim that nobody has been abducted by aliens?
9. What do you hope to have happen as a result of the book being published?
10. As the original civilian investigator of the Roswell Incident and the author of two books about that event, how do you compare it to the Hill case?
