NEWLY REVEALED SECRETS OF SOLOMON'S TEMPLE MAY RESOLVE AGE-OLD DISCORD

“Strongly recommended. From the Knights Templar to intricate depths of Egyptology, *Gnosis* covers every important event, item and person involved with the secrets of King Solomon's tomb.” —*Midwest Book Review*

San Francisco, CA (September 1, 2006) — For centuries, Christians, Freemasons, Jews, Knights Templar and other sects and religions have sought to uncover the truth behind Solomon's Temple, and they continue today to fight for control of what they believe to be the sacred temple site. In fact, scholars and academics have neither confirmed the location nor have they discovered archaeological remains, while conspiracy theorists accuse the various interested parties of covering up the legacy of Solomon, the King of Israel.

In his controversial new book *Gnosis: The Secret of Solomon's Temple Revealed*, the British scholar and visionary, Philip Gardiner, at last discloses and documents the truth. His discoveries about the temple surfaced during research for other books, when Gardiner deciphered the ancient and arcane Gnostic language, thus opening up a Pandora's Box of ancient secrets, one of which was the Temple of Solomon. Through his study of the Bible, the Koran, rabbinical teachings, the mystifying knowledge of alchemy, the history and mythology of the Knights Templar and the Holy Grail, and other sources, Gardiner ascertained that Solomon's Temple was a metaphor for an ancient psychology with far reaching ramifications in historical and religious circles, and for peace in today's world.

From the Queen of Sheba and the secrets of the Christian Gnostics to Muslim Sufi and Hindu Avatars, *Gnosis: the Secret of Solomon's Temple Revealed* weaves a tale so profound and precise that it rewrites not only the history of the fabled Temple to the Lord, but brings to the world a new method of psychology. Only one question remains: is the world ready for the truth?

Gardiner said,

“The secret may not be popular with Biblical scholars, Christians and others who wish to control what they imagine to be the temple site, and yet, thousands of lives could be saved when the truth about the purpose and the existence of the temple is known. The fact is that the teachings of the ancients were actually a working-through of a psychological process of inner balance; they gave us this teaching in the only way they knew, through analogy and symbology built around their own worldview. Part of that symbology was the concept, rather than the actual construction, of Solomon's Temple. It is clear this concept has been hidden, and continues to be hidden today, by those in the religious and political worlds who do not want man to be fully free.”

The best-selling author of *The Serpent Grail* and *The Shining Ones*, Philip Gardiner has made hundreds of radio, TV and public appearances; he is featured in a new Discovery Channel series to be released this year. He recently hosted the international “Forbidden Knowledge Conference” in England, and will be a featured speaker at the “Signs of Destiny Conference”, to be held this year in Los Angeles and in Tempe, Arizona.

“Gnosis is a refreshing creation of true spiritual teaching, as well as a damn good read. Gardiner possesses that rare ability to weave history, mythology and spiritual tradition into writing that is both understandable and enjoyable. His source material is impeccable and intentions totally above board.”—Gnostics
