*A Physician's Journey:
Near-Death Experiences, Divine Intervention
and the Collective Unconscious*

"I truly recommend this book to every health professional and those willing to accept the true nature of life. Turner's book can help you become aware of new and exciting aspects of true healing and curing." – **Dr. Bernie Siegel**, author of *Love, Medicine & Miracles*

San Francisco, CA (March 1, 2009) -- A renowned neurosurgeon, Dr. John L. Turner has throughout his medical career explored nontraditional healing techniques for his patients, including energy healing, chanting and meditation, soul travel, and astral projection. His new book, *Medicine, Miracles, and Manifestations: A Doctor's Journey Through the Worlds of Divine Intervention, Near-Death Experiences and Universal Energy*, traces his spiritual quest and his discoveries in the field of Integral Medicine.

For 18 years, Dr. Turner served as the first and only neurosurgeon on the Big Island of Hawaii, performing lifesaving procedures with a marginally trained staff and substandard equipment. Today, he is a consulting physician for the Hilo Pain Center in Hilo, Hawaii. Classically trained as a board-certified neurological surgeon at Ohio State University and the Cleveland Clinic, he specializes in surgical correction of disorders of the brain, spinal cord and nerves.

In one of the most surprising and timely books ever written by a physician, Turner reveals in *Medicine, Miracles, and Manifestations*:

- Metaphysical events such as remote viewing, telepathy, consciousness, and life after death are verifiable manifestations of the way the human brain interfaces with universal consciousness.
- Consciousness persists after death.
- Our lives are carefully planned before birth, yet there is an element of free will.
- We can interface with a spiritual world and a collective human unconscious.

-- more --

Page-turners, these are among the riveting chapters containing real-life doctor-patient occurrences:

- *Bullet in the Brain*
- *The Power of Chanting*
- *The Mysterious Case of Mrs. Dahn Luk*
- *Medical Remote Viewing*
- *Soul Travel*
- *Called to Say I Love You*

Dr. Turner said, "After fifteen years of training in science and medicine, a spiritual path began to unfold as a series of episodes, some involving patient care. (I found that) with knowledge of metaphysics, one may resolve difficult questions that physical science alone cannot answer. For example, should we believe in powerful gods, as taught by religious doctrines, or should we realize that a multidimensional energy field creates everything?"

Medicine, Miracles, and Manifestations is a powerful, factual story of a physician who rose above preconceived notions and prejudices to see the great beyond. Studying and operating on the brain, Dr. Turner became aware of the mind-body-spirit connection, and together with his fortunate placement in Hawaii, he learned to blend Eastern healing techniques and Integral Medicine with traditional Western treatments.
