PSIence: How New Discoveries in Quantum Physics and New

Science May Explain the Existence of Paranormal Phenomena

- 1 What inspired you to write a book combining the paranormal with quantum physics?
- 2 Have you had any paranormal experiences that led you to believe they had a scientific cause?
- 3 What is PSI?
- 4 Can all paranormal activity be explained by modern science?
- 5 What is the most interesting aspect of quantum physics in terms of the paranormal?
- 6 How do UFOs and ghosts relate to the idea of parallel universes and alternate dimensions?
- 7 What is the Zero Point Field and why is it so important?
- 8 How does the observer play a role in reality in terms of quantum physics?
- 9 Why is consciousness considered the key to all paranormal experiences?
- 10 How can quantum physics directly affect us on an everyday level?
- 11 Do poltergeists represent energy moving between dimensions?
- 12 What is a wormhole? Is there proof they exist?
- 13 How has ancient religion predicted the most cutting-edge theories of quantum physics?
- 14 How do the theories of non-locality and entanglement explain psychic ability and mind over matter?
- 15 Do energy vortices like the Bermuda Triangle exist elsewhere?
- 16 How does matter and energy move between dimensions?
- 17 What is resonance and how does it play a role in paranormal phenomena?

● **PSIence: How New Discoveries in Quantum Physics and New**

● **Science May Explain the Existence of Paranormal Phenomena**

PART ONE explores the paranormal world, focusing on aspects that suggest a scientific explanation.

Chapter One – Fermi Asked First

UFOs and extraterrestrial intelligence have long been thought to come from other planets in our universe. Much research suggests this may not be the only place from which they are coming. No matter where they come from, how are they bending our laws of physics to get here?

Chapter Two – Spectral Spectacles

The nature of ghosts, poltergeists and mysterious spectral creatures that seem to possess the ability to move between our world and the next. What are they made of, how do they move between realities, and what can they teach us about the nature of energy?

Chapter Three – Into the Void

Energy vortices and the Bermuda Triangle; possible portals into alternate dimensions and parallel universes; energy zones and ley lines, sacred geometry and time travel.

Chapter Four – Mind, Unlimited

Mind over matter, ESP, telekinesis, precognition, remote viewing and other forms of psi ability. How do we access the past and the future? Is remote viewing a form of tapping into a collective field of information? Does PSI ability have a scientific basis?

PART TWO explores quantum physics and basic theories about parallel universes, multiple dimensions, time travel, many-worlds theory and entanglement. A primer of basic quantum physics and new discoveries, including the Zero Point Field.

Chapter Five – Quantum Physics, 101

The basic theories of quantum physics, from non-locality to the more intriguing entanglement theory. An introductory look at the concepts that following chapters will connect with paranormal activity.

Chapter Six – A Universe On Every Corner

Multiple worlds, parallel universes and the theoretical physicists who love them! Do we exist at the same time on many different levels of reality? Can we experience these alternate worlds?

Chapter Seven – Up, Up and Away!

Dimensions, from the ordinary 3-D world we live in, to the mind-boggling concept of a fourth spatial dimension and beyond. Some theorize there may be as many as 12 dimensions, all gigantic and at the tip of our noses!

Chapter Eight – The Field of All Possibility

The amazing discoveries surrounding the Zero Point Field and its physical and metaphysical implications. Is this the collective unconscious of Jung, or the Akashic Records of Cayce? Can the ZPF provide unlimited, free energy for space travel? Are UFOs already using the ZPF?

PART THREE brings the PSI and the SCIENCE together.

Chapter Nine – You Can Get Here From There

How UFOs could be utilizing wormholes in space to travel between universes, even travel through time. What types of fuel are they using? From anti-gravity to anti-matter, we explore how ET propulsion technologies are not only possible, but, in the case of the Zero Point Field, are even being researched in our own earthbound labs.

Chapter Ten – Resonance

The concept of vibrational physics, resonance and the synchronistic relationship between different frequencies of energy. The ZPF suggests that all matter is vibrating, so what happens when matter synchs up? Can ghosts, poltergeists and entities use resonance to move between worlds?

Chapter Eleven – Cosmic Mind, Conscious Mind

The power of perception, consciousness and the observer to create and shape reality, and how quantum physics proves that the observer is key to the observed reality, and what this means for PSI and paranormal phenomena. What role does our consciousness play in inviting paranormal activity into our reality? Can we attract it? Is PSI ability available to anyone who understands the role of perception?

Chapter Twelve – As Above, So Below

Comparison of ancient religious teachings with modern quantum physics. Seems the ancient ones knew all about things like parallel universes, alternate dimensions and even wormholes through space and time! “In my father’s house are many mansions...”

AUTHOR BIO

Marie D. Jones has been involved with the paranormal for most of her life, including over fifteen years as a trained field investigator for both MUFON (Mutual UFO Network) and CUFOS (Center For UFO Studies), and a member of *Fate Magazine's* research community. She also formed two local UFO/paranormal research organizations in Southern California.

Marie is a licensed New Thought/Metaphysics minister and pastoral counselor, holding a Master's Degree in Metaphysical Studies. Currently pursuing Doctor of Divinity status, she has studied Wicca, Hermetica, goddess traditions, mythology and comparative religion.

Besides hundreds of books, articles, essays and stories to her credit, Jones is the author of *Looking For God in All the Wrong Places*, which garnered many positive reviews. The book was chosen as the "Best Spiritual/Religious Book of 2003" by RebeccasReads.com, and made the "Top Ten of 2003" list at MyShelf.com.

Jones has also authored and co-authored over three dozen inspirational books, including:

- *100 Most Fascinating People in the Bible*
- *Life Changing Prayers*
- *God's Answers to Tough Questions*
- *Bless This Marriage*
- *Simple Wisdom*
- *Angels In Our Midst*
- *How To Let God Help You Through Hard Times*

Her essays and stories have appeared in numerous book anthologies, including *Chicken Soup for the Working Woman's Soul*, *Chicken Soup to Inspire a Woman*, *If Women Ruled the World*, *God Allows U-Turns* and others. She is also a popular book reviewer for such websites as BookIdeas.com, RebeccasReads.com and CurledUp.com.

Jones has written articles for *MUFON Journal*, *UFO Magazine*, *Alternate Realities*, *InnerActivist*, *InnerSelf*, *Democratic Underground*, *Raw Story*, *AbsoluteWrite.com*, *Whole Life Times*, *Beyond Reality* and many other print and internet publications. She is also the writer and editor of the *Pro-Activist*, a progressive newsletter.

Also a screenwriter, Jones is the creator and producer of an award-winning children's video, *Pig Tales*, and has written several direct-to-video projects that received national distribution. Her various screenplays have placed highly in national awards and contests, and several have been optioned.

A talented public speaker, Jones has won many "Best Speaker" ribbons for her popular inspirational speeches at San Diego Toastmaster clubs. She formerly ran her own book review radio show, *Books For The Spirit*, on Book Crazy Radio.

Married, with one son, Max, she now resides in San Marcos, California where she continues her pursuit for knowledge of both the natural, and the supernatural.

WHAT THEY'RE SAYING ABOUT

- *PSIence: How New Discoveries in Quantum Physics and New*
- *Science May Explain the Existence of Paranormal Phenomena*

In *PSIence*, Marie Jones takes the reader on a roller-coaster ride into the unknown. Daring to penetrate the shadowy realms that co-exist alongside our own world, Jones provides much food for thought as she weaves together a fascinating theory to explain the many and varied mysteries that have fascinated humankind for millennia. If you are interested in UFOs, ghosts, strange beasts, aliens, ancient mysteries and more, *PSIence* is a book that you definitely need to read.

—NICK REDFERN, author of *Three Men Seeking Monsters* and *Body Snatchers in the Desert*

Marie is an expert layperson in communicating what can be some daunting new science to those who want to know more. She boils it down to its essentials and has done so deftly and brilliantly.

—PAVEL MIKOLOSKI, Grassroots Marketing Director, *What the Bleep Do We Know*

We now have the facts—details of how science and faith intersect. Matter and energy are infinitely available, and can manifest in virtually any way. Marie D. Jones has done a thorough job of explaining this. She takes us on a journey so complete, this book is worth dozens in your library. Any researcher of the paranormal will be delighted.

—JOSHUA P. WARREN, President, L.E.M.U.R., author of *How to Hunt Ghosts* and *Pet Ghosts*

The days of the petro-chemical powered rocket are rapidly coming to an end. With the recent advances in science, particularly quantum physics, it is becoming clear that the future lies in the manipulation of energy at the atomic and sub-atomic level. The once hard line between science and metaphysics is becoming more and more blurred. Einstein's Unified Field Theory now sounds like The Force in *Star Wars*. And, if the entire universe is truly one integrated mass of energy, then the Buddhists may be correct about everything being connected to everything else. This concept goes a long way in explaining phenomena such as psychic abilities, prophecy, remote viewing and the long reported actions of UFOs. Marie Jones has joined the list

WHAT THEY'RE SAYING ABOUT *PSIENCE* continued...

of forward thinking individuals who are taking us to the next level in both science and our understanding of the universe and our place in it.

—JIM MARRS, journalist and author of *New York Times* bestsellers, *Alien Agenda* and *Rule by Secrecy*

For centuries, science has mostly avoided the study of the paranormal because the subject isn't something that can be easily put in a test tube and measured. Science simply didn't know how to pose the right questions in order to find answers in this realm. Marie Jones's new book, *PSIence*, is a bold step forward in applying quantum physics to a millennia-old quandary. The theories she offers are insightful and at times startling. Highly recommended for those who are on a quest for answers.

SCIENCE and the SUPERNATURAL

CONVERGE in *PSience*

“Marie Jones has joined the list of forward thinking individuals who are taking us to the next level in science and our understanding of the universe and our place in it.”

—JIM MARRS, author of the *New York Times* bestsellers, *Alien Agenda* and *Rule by Secrecy*

San Francisco, CA (October 1, 2006) – Many of the world’s leading scientists, researchers and spiritual leaders—from noted physicists like Michio Kaku to the Dalai Lama—are beginning to accept the possibility of alternate realities and dimensions that warp time and space. In *PSience: How New Discoveries in Quantum Physics and New Science May Explain the Existence of Paranormal Phenomena*, author Marie D. Jones leads us on a journey to where the “normal” and the paranormal intersect, where the known and unknown converge, where science greets the supernatural.

A longtime investigator of metaphysics and the paranormal, Jones reveals, in layperson’s terms, how the latest discoveries in quantum physics and New Science may explain the existence of UFOs, ghosts, poltergeists, time anomalies, the Bermuda Triangle, energy vortices—and psychic abilities such as ESP and telekinesis. As paranormal researcher and author Nick Redfern said, “*Jones takes the reader on a roller-coaster ride into the unknown. Daring to penetrate the shadowy realms that co-exist alongside our own world.*” She answers many fascinating questions:

- Are poltergeists energy fluctuations in the Zero Point Field?
- Can the experience of déjà vu be explained by the quantum theory of parallel universes?
- Do thoughts have the energy to move physical objects?
- Is the Zero Point Field the source of all creative energy?
- Can every human being experience the paranormal?
- Do UFOs use wormholes to traverse between universes?
- What are the parallels between ancient religions and modern quantum physics?

The author of *Looking For God In All the Wrong Places*, as well as hundreds of published articles and essays, Jones is a New Thought/Metaphysics minister and counselor from San Diego (more on Jones at www.warwickassociates/PSience).

PSience brings today's hottest topics together into one book, covering the paranormal, quantum physics and the new science of consciousness studies in a style that is appealing and easy for everyone to comprehend. Simple sidebars and graphics explain complex concepts, and a touch of humor lightens the scientific material, resulting in a book as entertaining as it is educational.

Readers interested in mind-body subjects will enjoy the chapters on the role of perception and consciousness in paranormal activity, as well as the power of the mind and the ability of quantum physics to explain some of those powers. New Science fans will delve into the chapters on the Zero Point Field and the current research into the potentially holographic brain and how it parallels the holographic universe theory.
