## THE ALLIES OF HUMANITY

### SPIRITUAL TEACHER RELEASES INTERPLANETARY COMMUNIQUÉ WARNING OF EXTRATERRESTRIAL "INTERVENTION"

**BOULDER, CO (May 16, 2008)**—The world's foremost authority on the spirituality of Contact, Marshall Vian Summers, has released a controversial communiqué he says was transmitted to him by off-world agents cautioning humanity about the motives, plans, activities and ethics of Earth's ET "visitors."

"We are at the threshold of a new era," says Summers. "It's not just that we are not alone in the universe; we are no longer even alone in our own world. Humanity is rapidly emerging into a new era of direct contact with intelligent life from beyond our planet, the Greater Community, and we need to prepare for this eventuality."

For over twenty years, Summers has quietly taught and written about a new spirituality based on the realization that humanity lives in a vast and populated universe and is now preparing for emergence into a Greater Community of intelligent life. All of Summers' books, including *Greater Community Spirituality: A New Revelation* and the award-winning *Steps to Knowledge: The Book of Inner Knowing*, published by non-profit New Knowledge Library, have been heralded as landmark works.

With the publication of *The Allies of Humanity*, Summers now finds himself thrust onto the world stage as the world's first spiritual leader to warn that the increasing appearance of UFOs and other related phenomena such as "alien abductions" are symptomatic of "a subtle and unopposed Intervention by extraterrestrial forces who seek to exploit Earth's resources entirely for their own benefit." This is taking place at a time of unprecedented world change, when environmental degradation and resource depletion are placing humanity in a position of extreme vulnerability.

"Once in a great while, a book appears of such universal importance and urgency that conscience demands it be made available quickly to people everywhere," says Darlene

-more-

Mitchell, managing editor of New Knowledge Library. "It is my conviction that *The Allies of Humanity* is such a book."

According to Summers, the Allies, stationed at a hidden location within our solar system to observe and report on extraterrestrial activities on and around Earth, charge that our intruding visitors are in reality resource explorers and trade collectives who are seeking to gain competitive, economic and psychological advantage in our emerging world. Advocates of human independence, sovereignty and spiritual empowerment, the Allies urge a concerted grassroots response of public education and preparation, along with vocal resistance to extraterrestrial usurpation of human rights and freedoms.

"The Allies have accepted the challenging mission of providing to humanity critical information about the extraterrestrial intruders that we could not otherwise readily obtain," says Summers. "What the Allies reveal in their total of twelve briefings about the behaviors, intentions and strategies of the extraterrestrial visitors ends the mystery, enigma and ambiguity that have surrounded this issue for over 50 years."

In their report, the Allies strongly caution that while the extraterrestrial intruders obviously possess highly advanced technology and uncanny abilities to be powerfully but subtly influential in the "Mental Environment" (an arena where humans are unskilled and vulnerable), their morals, ethics and spirituality are not necessarily more enlightened than that of humanity.
