# New Testimony and Riveting Death-Bed Confessions in Revised Roswell Best-Seller

*"A well-researched, well-documented, and well-written account of a very important issue."* —Dr. Edgar Mitchell, Capt. USN [Ret.]  
Apollo astronaut, founder of the Institute of Noetic Sciences

**San Francisco, CA (March 1, 2009)** — Forewords by George Noory and astronaut Edgar Mitchell herald the release of *Witness to Roswell, Revised and Expanded Edition: Unmasking the Government's Biggest Cover-Up*. Containing deathbed confessions and compelling new eyewitness testimony surrounding the notorious Roswell UFO recovery in 1947, this new version of *Witness to Roswell* is the sequel to the best-selling UFO book of 2007/2008.

About authors Donald R. Schmitt and Thomas J. Carey, the SCI FI Channel Director of Special Projects said, *"No one on this planet knows more about the Roswell Incident than these two."* Frequent guests on such shows such as Oprah, 48 Hours, the Today Show, Larry King Live and Coast to Coast AM, the authors have unearthed astonishing new evidence, including:

- The identity of the Boeing engineer who examined the wreckage
- Deathbed confessions describing the "little people" at the crash site
- What happened at the Roswell base hospital
- The soldier who wore gloves at his dinner table after guarding the "bodies"
- The auto dealer who was "never so scared in his life" after being pressured to keep quiet about what he saw
- The firemen threatened by the Air Force and the Roswell city government to hide what they knew
- The Boeing Aircraft Company crash inspector whose life and those of his family were threatened by the government
- The name and the tactics of the military thug dispatched to silence local ranchers

For the first time ever, *Witness to Roswell, Revised and Expanded Edition* lays out scientific evidence that the Roswell crash involved an extraterrestrial spacecraft manufactured off planet and not a weather balloon, as the Air Force and the Government have been trying to explain for over sixty years. Schmitt and Carey name names, such as the Air Force General who was flown into Roswell and then reported on the incident directly to President Truman, and the nurse who is alleged to have participated in the alien autopsy.

They reveal what the Roswell base commander, William Blanchard, said in private, and why the *LIFE Magazine* photographer on the scene was given a gun for self-protection. They solve the mysteries of the child-sized caskets for the dead aliens, and the location of the remains of the crashed spaceship.

Scientific Director of the Allen Hynek Center for UFO Studies, Dr. Mark Rodeghier said, "*Witness to Roswell contains much new information from credible witnesses who add more weight to the existing testimony and evidence that something extraordinary crashed in 1947.*"
