Written by Nick Redfern

- ▶ Will you tell us about the most famous *Contactee*, George Adamski, who claimed to have met human-like aliens in the Californian desert in 1952?
- ▶ George Van Tassel was a 1950s *Contactee*, who also claimed to have met aliens in the deserts of California, and who later began to hold huge conferences out at a place called Giant Rock. Can you elaborate on Van Tassel's claims of allegedly being taken on board a spacecraft?
- ▶ The FBI has released once-classified files showing it spied very deeply on both Adamski and Van Tassel. What do the files tell us about both men and the FBI's conclusions on the *Contactee* subject?
- ▶ Can you tell us about Truman Berthurum, who claimed to have been in touch with a beautiful female alien in the 1950s named Aura Rhanes?
- ▶ A Brazilian man named Antonio Villas Boas claimed a close encounter of a very sexual nature with a female alien, while on board a spacecraft. What are your views on Villas Boas' claims?

- Were the Contactees telling the truth, were they delusional, or were they – as some researchers believe – trying to spread Communist propaganda about the need for nuclear disarmament?
- Why did the Space-Brothers prefer to covertly contact regular members of society like Adamski, Van Tassel and Bethurum instead of landing outside the White House or Buckingham Palace?
- Can you relate the story of the senior member of the British military who claimed to have met a human-like alien he called “Mr. Janus”?
- Are Contactee reports still surfacing today, or are the Space-Brothers no longer around?
