New Book Predicts Official Disclosure of Alien Contact: Radical Social Changes Foreseen

"An important attempt to prepare us for the inevitable: an open understanding that we are not alone. Not in this universe, and not even on Planet Earth." □
Edgar Mitchell, Sc.D, Apollo 14 Astronaut

"Zabel and Dolan have brilliantly created a blend of history and informed speculation that makes their exciting world seem like tomorrow's news today."
Stan Lee, Creator, Spider-Man, X-Men, Avengers

San Francisco, CA (May 1, 2012) -- During our lifetimes, after decades of government and military cover-ups, we will witness the admission that contact with alien civilizations has been made. The new book, *A.D. After Disclosure: When the Government Finally Reveals the Truth About Alien Contact*, is the first work of non-fiction to describe our post-Disclosure world. Unlike any of the hundreds of books, films, TV series and other media that focus on UFOs and ETs, *A.D. After Disclosure* lays out in spellbinding detail what may happen after an announcement that UFOs are real.

Historian/researcher Richard M. Dolan and journalist/screenwriter Bryce Zabel have put together an exciting work of meticulous fact-finding that predicts radical change after official acknowledgment from world leaders that some UFOs are intelligently controlled craft from somewhere other than Earth.

Backed by their years of involvement in the study of alien contact, the authors speculate that Disclosure is inevitable, and it well may be soon. With extensive photographs, and a compelling foreword by Jim Marrs (*NY Times* best-selling author of *Alien Agenda*), their groundbreaking new book constructs spine-tingling, enlightening scenarios surrounding the end of UFO secrecy. Life on earth will go on after the truth is revealed; yet, it will never be the same.

A.D. After Disclosure explains the transition from B.C. (Before Confirmation) to A.D. (After Disclosure), giving people a chance to prepare for when the calendar is reset and history begins again. The book makes mind-blowing, specific predictions, such as:

- Congress will hold Watergate-style hearings, asking secret-keepers, "What did you know and when did you know it?"
- The first decade After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change.
- Abductees will file a class-action suit against the government for withholding critical information.

- All the textbooks on planet Earth – from history to science – will need immediate review

A majority of Americans believe that UFOs are of extraterrestrial origin, and at least 5% claim to have seen a UFO. Add to this the massive research and eye-witness evidence that has been compiled, and once-classified documents that were recently released through the Freedom of Information Act, and you have an avalanche ready to drop with possibly devastating results. *A.D. After Disclosure* lays out the answers to the questions that we are all asking:

- *Why has government and military secrecy about UFOs been necessary?*
- *Will Disclosure lead to worldwide panic? will it undermine religion? destroy the stock market? lead to scientific upheaval? change our military and our legal system?*
- *How will the truth change our daily reality, our way of life, our culture and our society?*
- *Will Disclosure be a positive force, resulting in revolutionary new technologies, extended life spans and world unity?*
- *What do alien explorers want? what will we learn and gain from them? are they visitors or earth residents---or both?*

The authors describe the inevitable Day of Disclosure itself, as President of the United States joins with world leaders to make the announcement that will change our world. They go on to lay out the history of UFOs, the decades of cover-ups, and the likely triggers that will prompt the end of secrecy. The final chapter is a riveting analysis of the likely threats and the possible benefits of acknowledging and encountering ETs and UFOs.

About the Authors: **Richard Dolan** has a graduate degree in history from the University of Rochester, where he studied U.S. Cold War strategy, Soviet history, and international diplomacy. While writing a book about U.S. national security policy, he became fixated on the issue of UFOs; his research evolved into *UFOs and the National Security State*, a ground-breaking, multi-volume historical study of the attitudes and policies toward UFOs by the military and intelligence community, and the fascinating development of the citizen movements to end UFO secrecy.

Dolan has published numerous articles, spoken at conferences around the world, and appeared as an expert on many TV specials.

Bryce Zabel has created five primetime network series, notably NBC's Emmy-winning UFO series "*Dark Skies*". While doing research for several high-profile film and TV projects, he found that UFOs were not science fiction, but science fact. Subsequently, he developed *Dark Skies*, wrote the SyFy Channel's first original film *Official Denial*, and worked with Steven Spielberg on *Taken*.

Zabel has worked on a dozen TV writing staffs, winning the Writers Guild of America screen-writing award and collaborating with producers including Spielberg and David E. Kelley. Zabel is a former CNN correspondent and PBS investigative reporter, and the first writer elected as chairman/CEO of the Academy of Television Arts & Sciences since Rod Serling.

Zabel's production company, Stellar Productions, is currently developing *A.D. After Disclosure* as a dramatic TV series.

*"What if the UFO cover-up ended? **A.D. After Disclosure** looks at the societal consequences of such a revelation. Dolan and Zabel have produced a thoughtful and provocative analysis that goes well beyond the usual scope of books on UFOs and alien life."*

Nick Pope, Former Chief of UK Ministry of Defence UFO Desk
