

BOOK SUMMARY

American Vampires

By Dr. Bob Curran

THINK YOU KNOW VAMPIRES?

Sure you do. And you know where they live – Transylvania, New York, New Orleans, Los Angeles. Wrong! Vampires are not what you imagine at all! They don't even have to be dead – or human! How about a vampire chair? A well which drinks energy? A shadow on the floor that won't go away? And how about finding them along some lonely background in Ohio or misty bayou in Louisiana?

American vampire lore has its roots in the beliefs and fears of the diverse peoples and nationalities that make up our country, and reflects the rich tapestry of their varied perspectives. The vampires that lurk in the American darkness come in a variety of shapes and sizes and can produce some surprising results. Vampires in North Carolina are vastly different from those in South Carolina, and even more different than those in New York State.

Take a trip across America with **Dr. Bob Curran** and visit some of the places where they might be lurking. It's a scary journey but we guarantee you'll never look at vampires in the same way again!
