# Did Ancient Aliens Change the Course of Human History?

---

*"This work by Philip Coppens is an important and outstanding contribution."*  
Erich von Daniken, best-selling author of *Chariots of the Gods*

---

**San Francisco, CA (July 1, 2011)** — Did extraterrestrials land on Earth thousands of years ago and share their superior knowledge of science and engineering with early civilizations? Is there evidence to support this theory? Do our ancient monuments contain evidence of these beings from other planets?

In his new book, *The Ancient Alien Question: A New Inquiry Into the Existence, Evidence, and Influence of Ancient Visitors*, the prolific author, Philip Coppens, lays out astonishing proof that our ancestors were far more technologically advanced than we realize, and that some of the early cultures interacted with non-humans. A leading contributor to The History Channel's popular series, "**Ancient Aliens**", Coppens has analyzed historical and archaeological research for many years, to reveal, in his uniquely readable, enjoyable style, some breathtaking facts and conclusions:

- ☛ A radical new explanation of the construction of the Egyptian pyramids
- ☛ The origins of crystal skulls and how they were found
- ☛ Extraordinary stories behind monuments such as the Nazca lines, Puma Punku and Stonehenge
- ☛ How extraterrestrials came to land on our planet
- ☛ Centuries-old works of art depicting alien-like figures
- ☛ Ancient texts in which humans interact with beings descended from the sky

*The Ancient Alien Question* is loaded with new archaeological discoveries and research, adding to Coppens' mounting evidence that "they" may have been here.
