

THE BOOK OF TRANSFORMATION

By Lisa Barretta

BOOK SUMMARY

The Book of Transformation is your complete guide to what you can expect to experience as planet Earth moves within the Milky Way Galaxy and edges closer to the higher frequency from the galactic center. This dial has been moving backward due to the procession of the equinox through the sign of Pisces for the past 2000 years. The era of illusion and religious dogma is about to give way to one of living our truth and spirituality as we welcome in the coming Age of Aquarius. This new age will bring in the energy of transformation and elevate man into a higher consciousness.

The Indigos, Crystal and Star children help us usher in the world of higher frequency living as they push forward with their efforts to make us a kinder, gentler species that no longer is held captive by false beliefs, materialism, oppressive governments, fear consciousness and medical victimization. Just as an embryo lives and grows inside the womb experiencing a limited existence until it is ready to move into the next phase of life in the outside world we too are being pushed out of our comfort zones into a world that now gives us the opportunity to experience life from a higher dimension beyond the 3-D world. This book is your guide to understanding, trouble-shooting and correcting energy imbalances within your newly evolved existence and also clues you in on the function of the pineal gland, junk DNA, along with explaining the functions of the often over looked chakra system, your personal energy spark plugs that tune in your newly evolved psychic senses.

This book will open your eyes and make you ask the questions, who created us and do we have an alien ancestry.
