

INTERVIEW QUESTIONS

Destiny vs. Choice

By Marie D. Jones

- What is destiny?
- What is free will?
- Do most of the world's religions support the concept of destiny, free will, or both?
- How does belief in God or Intelligent Design correspond to a belief in destiny, or a belief in free will?
- Can we find evidence of destiny and free will in nature?
- What does science have to say about both destiny and free will?
- Is genetic evolution proof of a blueprint of life?
- How does nature vs. nurture and human behavior play into the debate between destiny and free will?
- What do astrology and other divination systems say about fate and free will?
- How do consciousness, intention and the law of attraction play into the concepts of destiny and choice?
- Do we make life and reality up as we go along, or is it already a "done deal?" And can someone change their destiny?
- What might stories of life after death tell us about both destiny and free will?
- What does the world of quantum physics have to say about both fate and free will?
- In general, do most of the people you talked to believe in one or the other, or both?
- Do you, the author, have any stories of how both destiny and free will played a role in your own life?
- How does knowing your destiny help you to live the best life possible?
