# DOES FATE DETERMINE OUR LIVES

## *or Do Our Choices Make All the Difference?*

---

*"Marie Jones has joined the list of forward-thinking individuals who are taking us to the next level in both science and our understanding of the universe and our place in it."*

~ Jim Marrs, author of *New York Times* Bestseller "Alien Agenda"

---

**San Francisco, CA (August 15, 2011)** —*You can't avoid it, it's written in the stars—or is life what you make it?*

Has there ever been an answer to the question: *Are our lives predestined by Fate that deals us the cards we must play, or are we the result of our choices as we go along?*

A new book by Marie D. Jones, one of the foremost experts on metaphysics and contemporary science, *Destiny vs. Choice: The Scientific and Spiritual Evidence Behind Fate and Free Will* examines the philosophical, spiritual, and scientific evidence for both beliefs, and lays out a guide for how we can live better, more fulfilling lives no matter which side ultimately "wins" the debate.

*Destiny vs. Choice* explores:

- The historical battle between Fate and free will
- Intelligent design, evolution, the Big Bang, and DNA as blueprints for life
- How the world's religions view destiny and choice
- The Law of Attraction, intention, and consciousness as ways to create reality
- How quantum physics offers evidence for both destiny and choice
- Fate and the paranormal: ghosts, life-after-death experiences, and astrology
