## ***Finding the Magic in Money: Using Financial Sorcery to Build and Keep Wealth***

---

**San Francisco, CA (July 15, 2011)** — Every witch and magician knows a few good money drawing spells, yet few know how to teach people to build wealth using magic, while maintaining their spiritual life.

In his new book, *Financial Sorcery: Magical Strategies to Create Real and Lasting Wealth*, the well-known teacher, author and blogger, Jason Miller, lays out step-by-step instructions that will improve anyone's fiscal situation. For those who are already well off and for people deeply in debt, for the unemployed and the underemployed, he demonstrates how to use magic to create real and lasting wealth.

Far beyond simple "money magic," *Financial Sorcery* teaches the reader how to:

- Stop using magic to fix emergency problems and start using it to build the life of their dreams
- Use times of economic uncertainty to create new opportunities
- Work joyfully with money as part of a spiritual discipline, rather than as a necessary evil
- Make offerings to help increase the flow of prosperity
- Ditch old concepts and retrain the mind to make money in today's world
- Use the interplay of macro- and micro-enchantment to find jobs and get promoted
- Deploy strategic sorcery to kill debt
- Create secondary income streams to ensure continued revenue
- Escape entirely the need for a 9-5 job

*"It has been said that money is the root of all evil. In my experience it is the lack of money that is the root of a lot more suffering than money itself. I agree that there is more to life than money, and I agree that many people can wind up enslaved to materialism, but if you can't avoid money and you can't serve money, then the only choice is for you to master it!"*

At last revealing the secrets of his popular intensive workshops, Miller shows how to blend magical and mundane actions to ensure financial success, no matter what happens in life or with the economy.
