*The Notorious Nick Redfern*  
**OPENS THE DOORS OF TOP SECRET  
FACILITIES AROUND THE WORLD**

---

San Francisco, CA (December 15, 2011) — Best-selling author, lecturer, and journalist Nick Redfern is world-famous for ripping the lid off unsolved mysteries and conspiracy theories. His latest book, *Keep Out! Top Secret Places Governments Don't Want You to Know About*, is guaranteed to rock his avid fans.

From Area 51 to Hangar 18, the Montauk facility and the Dulce Base to HAARP in Alaska, Fort Detrick, the Zhitkur underground realm and more, highly classified installations around the world are off-limits to the general public. The governments of the United States, Australia, China, Russia, the United Kingdom and others say, “Keep Out!”

Redfern has opened up secret facilities that for decades have reportedly been the sites of crashed UFOs, deceased aliens beings, bizarre animals, lethal viruses, biological warfare, mind-control experimentation, and much more.

His explorations and research have taken him deep into the oceans, below ground and to remote desert fortifications where super secret sites are guarded with a near-paranoid zeal by those are keeping them locked far away from prying eyes—until now.

Redfern's *Keep Out!* answers these and many more hair-raising questions:

-  In 1980, did science-fiction-like events occur in Rendlesham Forest, Suffolk, England, adjacent to the British Royal Air Force/U.S.A.F. complex of Bentwaters-Woodbridge?
-  Did biological warfare research at Fort Detrick involve a lethal virus of alien origins?
-  Pine Gap is the only locale in Australia over which it is illegal to fly. Is this the beginning of an Orwellian-style society Down Under?

— more —

- ☠ Are deep caves being secretly transformed into shelters for the ruling elite, in case of dramatic catastrophe?
- ☠ At the Smithsonian, do hidden chambers house ancient anomalies from the distant past? the Ark?
