Top Secret u.s. air force stronghold hides physical evidence of roswell crash

"There is no one on this planet who knows more about the Roswell incident than these two guys." – Larry Landsman, Director of Special Projects for the Syfy Channel and Creative Executive of The Roswell Crash

San Francisco, CA (August 19, 2013) — It's classified. The real story of what actually crashed in Roswell, New Mexico, in 1947 remains "eyes only" to the select few who have been granted access to the truth about the notorious Area 51. The new book, *Inside the Real Area 51: The Secret History of Wright-Patterson*, lays out new revelations that the physical evidence of the alien crash at Roswell is now buried deep within the top-secret nuclear stronghold of Wright-Patterson Air Force Base in Dayton, Ohio.

Renowned UFO researchers, lecturers and investigative journalists Thomas J. Carey and Donald R. Schmitt have produced a startling body of research pointing to Hangar 18 as the storage site of fragments of the alien craft, and even bodies of crew members of the downed space ships. Author Thomas J. Carey said, *"We believe that some of the stuff was loaned around, but the main repository is the foreign technology division at Wright-Patterson."*

Among the most well-known of UFO experts worldwide, Carey and Smitt are co-authors of *Witness to Roswell, Revised and Expanded Edition: Unmasking the Government's Biggest Cover-Up*. They are both frequent guests on such shows as Oprah, 48 Hours, the Today Show, Larry King Live and Coast to Coast AM, and many more.

Among goose-bump-worthy questions answered by the authors in *Inside the Real Area 51: The Secret History of Wright-Patterson*:

"Are live beings from other worlds being held in that heavily guarded hangar?"

"After the crash, where were the crash and body fragments taken to be examined?"

"Why does the Air Force refuse to allow the media (or anyone else) to come within sight of Hangar 18?"

"Who are the archaeologists who showed up at the crash site and mysteriously disappeared?"

"Has the military pressured the authors to give up their investigations into Roswell?"

About the Authors:

Donald R. Schmitt is a best-selling author and the former co-director of the J. Allen Hynek Center for UFO Studies, where he served as Director of Special Investigations. He was also Art Director for the *International UFO Reporter*. The motion picture "Roswell", based on Schmitt's first book, was nominated for a Golden Globe "Best Picture". Besides consulting on the movie, he also made a cameo appearance.

Thomas J. Carey is an Air Force veteran who held Top Secret security clearance. He has spent the last 22 years investigating the Roswell Incident and has published more than 35 articles about the incident and has contributed to a number of Roswell-related documentary films.
