

DEFINITIVE EVIDENCE OF THE ANDREASSON ABDUCTION:

Abductee Describes Her Terrifying Alien Intervention

"Something extraordinary happened to Betty Andreasson. Maybe she encountered non-human visitors or maybe something even more strange. Whatever her experience, her immensely powerful story awed me. Its rich and provocative imagery will remain with me forever." —WHITLEY STRIEBER, author of *Communion*

San Francisco, CA (October 1, 2014) — More than just a classic example of a close encounter, the Andreasson case may well be the best documented case of a UFO abduction to date. A prolific author and expert on the subject of UFOs and alien intervention, Raymond E. Fowler presents the definitive evidence and testimony in his new book, *The Andreasson Affair: The True Story of a Close Encounter of the Fourth Kind*.

Fowler interviewed Betty Andreasson after her experience as an abductee, and in his new book, for the first time in over fifteen years, Betty speaks again of what happened to her.

An intensive year-long investigation of the Andreasson abduction was conducted for the Center for UFO Studies (CUFOS), involving, among other things, the recording of extensive testimony given under hypnosis; lie detector testing of witnesses, detailed analysis of corroborative circumstantial evidence; exhaustive comparison with other such accounts, and more. *The Andreasson Affair* includes all of this, and:

- The most detailed description of any UFO abduction experience
- Betty's precise drawings of her experience
- A supporting foreword to the book by astronomer Dr. J. Allen Hynek
- Verification of all events associated with Betty's experience

Fowler interviewed the traumatized victim, Betty Andreasson, about the incident, and describes her re-experience of the physical and emotional ordeal, and the long-term effects on her life. *The Andreasson Affair* also includes the drawings that Betty made of what she saw during the kidnapping and alien intervention.

Raymond E. Fowler's detailed account of this notorious abduction is the gold standard for investigation of such encounters. He is a true expert on the subject, as he has been an abductee himself.
