

PRAISE FOR:

The Oneness Blessing

By Paula Rosenfeld

This book is a MUST READ! The “Oneness Blessing” book miraculously makes previously complex, spiritual ideas simple to understand. I felt Deeksha flow through me as I read it and easily returned to the feelings of joy and surrender I felt while at Oneness University, India. The stories in it are amazingly clear and thoughtful, and at the same time, every page has a miracle encoded in it. One can randomly open to any page, and access truth that will set you free. It’s a book to be read over and over.

“What is” ... is that this book is brilliant!

A Fascinating read! When the world offers daily grim and daunting reports for our future, Ms. Rosenfeld delivers The Oneness Blessing- a resource that was for centuries available to only a few in Southern India- connecting us to a power that has the potential to uplift and improve the lives of every person on the planet.

There is an exciting transformation of human consciousness happening within humanity right now, and the “Oneness Blessing” book captures this powerfully! It takes the reader on a well-rounded and in-depth look at the incredible Oneness Phenomenon sweeping the planet. The real life experiences of awakened people offer a rich and inspirational guide to living a happy and meaningful life, filled with abundance and healed relationships. I highly recommend this enlightening book for everyone seeking a personal and collective shift in these exciting and evolutionary times!
