AN ELECTRIFYING INTERPRETATION OF THE NEW TESTAMENT

by **Barbara Marx Hubbard**
the Foremost Global Voice for Conscious Evolution

“A modern day mystic, Hubbard’s spirit is clearly in touch with the Spirit of Christ. Even so, her feet are firmly planted on Earth while her heart points toward a more beautiful human future.” — REV, PAUL R. SMITH, retired Baptist minister and author of *Integral Christianity*

San Francisco, CA (November 2, 2015) — From the renowned author, teacher and visionary, Barbara Marx Hubbard, comes *The Evolutionary Testament of Co-Creation: The Promise Will Be Kept*, a new book that builds upon the great themes of the New Testament, showing how they are now manifesting in our power to destroy or restore the Earth, and in the capacity of individuals and societies to evolve.

Known for decades around the world as a social and spiritual innovator, Hubbard believes that humanity has the tools, the fortitude, and the resolve to take the leap towards conscious evolution. And in her new book, she reveals how each of us can use our Christ-like powers to create a positive future for the planet. She said, “*There is a range of opinion as to whether we are declining rapidly and perhaps irreversibly, toward irreparable global environmental or economic catastrophe, or whether our crises are leading us toward a positive future. Both scenarios, as well as many variations, are possible.*”

As she delves deeply into the Gospels according to Mark, Matthew, Luke and John; the Acts of the Apostles, and the Epistles, Hubbard brings to the 21st century the message of Jesus’ teachings from 2,000 years ago. She discovers that Jesus was not only a revolutionary but an evolutionary, and she describes for her readers how to achieve the Christ state as individuals and as part of the human race. She calls this collective transformation the “Planetary Pentecost,” a life-affirming alternative to Armageddon.

The author of the definitive biography of Hubbard and the contributor of the foreword to *The Evolutionary Testament of Co-Creation*, **Neale Donald Walsch** (*Conversations with God*) writes:

— more —

“(She has had) an extraordinary experience of direct revelation of such magnitude that it offers the world a chance to view Jesus and the New Testament in a new way that could dramatically alter humanity’s fundamental understanding and expression of what it means to be human—a way that could change forever and for the better how life is experienced.”
