SPEAK TO ME!

Everything You Ever Wanted to Know About Talking with an ET

Dear Editor/Producer,

October 1, 2015

Can we actually communicate with aliens and extra-terrestrials, and if so, can they understand and speak our languages? And, who should be the communicators? Will we speak with aliens by telepathy or technology? Do they have DNA? What are their intentions?

These and many more fascinating questions are answered in Nancy Du Tertre's new book, *How to Talk to an Alien: Can They Speak Our Languages? Can They Read Our Minds? What Are They Trying to Tell Us?*

A noted psychic and spiritual medium, a trained remote viewer and ufology expert, du Tertre is widely known as the "Skeptical Psychic." Her predictions and her research into connecting with ETs have emerged from her scientific focus on psychic intuition and linguistics—along with her own UFO/alien experiences—resulting in a new field of extraterrestrial/alien communication.

Do let me know if you plan to publish a review of *How to Talk to an Alien*. I will be happy to arrange a book excerpt or an article, or an interview or guest appearance by the author, who is a popular media guest.

To request an interview or materials, please go directly to Nancy's book publicity page at www.warwickassociates.com.

Sincerely,

Simon Warwick-Smith
