

DO ALIENS SPEAK OUR LANGUAGES AND READ OUR MINDS?

A New Guide to Talking with ETs

San Francisco, CA (October 1, 2015) — Nearly half of all Americans believe that UFOs may be signs of extraterrestrial visits. About 10% claim to have witnessed an actual UFO and 2.9 million Americans believe they have been abducted by aliens.

Where are these aliens, and how can we communicate with them? Who shall speak to them on behalf of planet Earth, and who can translate their intentions—good or evil—toward the human race, and where can we learn about their advanced technologies?

These and many more fascinating questions are answered in Nancy Du Tertre's new book, *How to Talk to an Alien: Can They Speak Our Languages? Can They Read Our Minds? What Are They Trying to Tell Us?*

A trained psychic and spirit medium, an attorney and a trained remote viewer and Gestalt therapist, du Tertre is widely known as the "Skeptical Psychic." Her unique approach, her predictions and her research into connecting with ETs have emerged from her scientific interest in psychic intuition and linguistics—along with her own UFO/alien experiences—resulting in the new field of extraterrestrial/alien communication.

She said, *"We are no longer just looking at strange flying objects in the skies—now, we are beginning to interact with the pilots, crew, and passengers!"*

How to Talk to An Alien covers the gamut of current and conceivable communication with ETs:

- *Why it is important for us to communicate with ETs*
- *What we can expect from telepathy, electronic voices and technology*
- *If aliens are biologically equipped to talk, what language(s) do they speak, and do they understand English?*
- *Do ETs have a written language? Codes? DNA?*
- *The history of crop circles as evidence of ET communication*
- *SETI efforts to send messages via radio telescopes and spacecraft*

Discussions in the book range from ufological aspects of the beginnings of the major religions to the abductions of Betty and Barney Hill and others. Contributor of the foreword to *How to Talk to An Alien*, Stanton T. Friedman, said, "*I suspect that this book will stimulate many more books in this brand new field of 'Exolinguistics.'* This is a great and very stimulating beginning!"

About the Author: known as the "Skeptical Psychic," **Nancy du Tertre** advocates an approach to psychic ability called TSP, a form of tested ESP and clairvoyance that combines intuitive imaging with rational feedback. She is a popular speaker, a frequent media guest, and a former CBS radio show host, and will be appearing at the 2015 MUFON Symposium. Du Tertre has appeared on Coast to Coast, Second Sight Radio, Business Talk Radio, and hundreds more regional and national network radio and TV programs such as "Mystery Hunters" and the Sundance Channel's "Love Lust and the Paranormal." She is also the author of *Psychic Intuition: Everything You Ever Wanted to Ask But Were Afraid to Know*.

A *magna cum laude* graduate of Princeton University and an attorney specializing in securities litigation, the author works with law enforcement on missing persons and homicide cases. She is trained in military remote-viewing techniques and is a paranormal and ufology researcher, a medical intuitive and an energy healer. Du Tertre teaches psychic development classes, lectures to university psychology students and gives seminars to paranormal investigative teams across the country.
