

Sons and Daughters of Roswell Witnesses Reveal Years of Abuse and Surveillance by U.S. Government

San Francisco, CA (February 1, 2016) — Since 1947 when alien spacecraft crashed near Roswell, New Mexico, the historic incident has been well documented, described, researched and explained in countless books, articles and films. Two of the most reputable Roswell experts, Thomas J. Carey and Donald R. Schmitt, have at last exposed the turbulent and scandalous aftermath—the lifetime impact that Roswell has had on families who have lived with the truth while enduring the government’s erroneous accounts of the event.

In the newest of their bestsellers, *The Children of Roswell: A Seven-Decade Legacy of Fear, Intimidation, and Cover-Ups*, the authors reveal evidence of years of suppression and fear of reprisal that these descendants of the Roswell witnesses have suffered from the U.S. government.

Most of the parents who were present during or immediately after the incident may have passed on, but their children and grandchildren know what happened and have paid dearly for their knowledge. Their documented stories are described in chilling detail in *The Children of Roswell*, and they make for fascinating reading:

- The daughter of a witness to an alien body discovered that her phone had been bugged for years.
- How the U.S. Air Force tried to change the mind of the son of the Roswell intelligence officer.
- What really became of the son of the principle witness, who disappeared in 1960.

Why does the government go to such lengths to keep these families quiet after nearly 70 years? Frequent contributors to TV programs, documentaries, and movies on the subject, and frequent media and conference presenters, Carey and Schmitt are among the most trusted sources of answers to this question.

About the Authors: Thomas J. Carey and Donald R. Schmitt are the co-authors of *Witness to Roswell* and *Inside the Real Area 51*, one of which became the Showtime

original movie "Roswell." Both authors were consultants for the Sci-Fi Channel's documentary, "The Roswell Crash."

Dr. Edgar Mitchell, Captain USN [Ret.] and Apollo astronaut, said,
"Witness to Roswell is a well researched, well documented, and well written account of a very important issue."

Thomas J. Carey holds a master's degree in anthropology and is a U.S. Air Force veteran who held Top Secret security clearance. He has investigated and written about the Roswell incident for over two decades, and consults on Roswell-related documentaries. Carey has appeared on Larry King Live, Coast to-Coast AM, and many more radio and TV shows.

Donald R. Schmitt is a *cum laude* graduate of Concordia University, and a former codirector and director of special investigations at the J. Allen Hyneck Center for UFO Studies in Chicago. He is also a founder and board advisor of the International UFO Museum and Research Center in Roswell. Schmitt has appeared frequently on TV programs including Oprah, CBS 48 Hours, and the Today Show, and on many radio programs.
