Startling Discovery of a Crystal Skull

Holds the Promise of Healing and Transformation for a New World

San Francisco, CA (December 1st, 2019). — Under the guidance of a 200-year-old Tibetan Master, the author of the new book, *The Crystal Skull of Compassion*, investigates and reveals the transformational power of the “Daikomyo-zo Chenrezi Skull”.

A best-selling, prolific author, **Klaire D. Roy** is Director of the Medicine Buddha Mandala Institute in Montreal. Renowned for her knowledge and teaching of energy healing through crystals, Roy took on the monumental task of interpreting the Master Djwhal Khul’s discovery and study of the skull, which has been gifted to our planet.

Originating in the distant constellation of Canis Major, and made known to a group of chosen people, the skull is programmed to heal today’s lack of love and wisdom, particularly as applied to our current medical and social systems. Through this groundbreaking book, readers come to understand and receive the energy and universal wisdom of the skull, thereby awakening their consciousness, and raising their physical, emotional and spiritual well-being.

The Crystal Skull of Compassion begins with an introduction to the origins, descriptions, and uses of the legendary thirteen crystal skulls, which have long been analyzed and presented in many books and other forms of media. Beyond this overview, Roy’s new book becomes a thrilling illumination of the transformational influence of the Daikomyo-zo Chenrezi skull, for individuals and for the evolution of humankind.

“These skulls are receptacles that contain and retain information and embody the atomic Light that has been transmitted by those peoples who lived (in an illusorily sense, since time-space is essentially an illusion utilized in certain planetary systems) during the millennia preceding our present era.” — DK

Roy describes the crystal skulls as guides to profound, ageless wisdom, as she teaches how readers might receive the Divine energy that can, when accepted, transform the world. To that end, the book contains nine full-color photos of the Tsoraigkejourg skull, showing extraordinary evidence of chakras and other channels of communication between open-hearted individuals and the spiritual potential of the skull. Finally, the book provides two guided meditations with which readers may connect deeply and naturally with the wisdom of the skull, thereby becoming allies of Divine evolution.

Klaire D. Roy said, *"We are not alone in the universe. Invaluable tools have been gifted to us by evolved beings who desire to see us progress . . . as much on the spiritual, physical and technological planes as on the scientific."*

About the Author

Klaire D. Roy is Director of the Medicine Buddha Mandala Institute in Montreal; a nurse, author, teacher, and a sought-after speaker and media guest.

For more than thirty years, she has studied, written about, and presented to conference audiences her enlightened, educated view of authentic spirituality. A student of holistic health and alternative treatment methods for more than a decade, Roy trains new lithotherapists. She is also Editor in Chief of *La Pierre Chantante*, a magazine devoted to health and wellness through stones and crystals.

Her writings, some translated into several languages, focus on self-awareness, meditation, the Soul, the spiritual path, the instructor-disciple relationship; and lithotherapy, an alternative healing system that uses the energy and colors of stones to harmonize and balance the body.

Klaire D. Roy is the author of many best-selling books, some translated into various languages.
