

AD: AFTER DISCLOSURE

By Bryce Zabel & Richard M. Dolan

BOOK SUMMARY

What if UFO secrecy ends tomorrow? The transition from B.C. (Before Confirmation) to A.D. (After Disclosure) is the ultimate "what if?" scenario where the calendar is re-set and history begins again.

This work of speculative non-fiction combines meticulous fact-finding from historian/researcher Richard M. Dolan and forward-leaning scenarios from journalist/screenwriter Bryce Zabel on the world's most mind-bending subject. The authors predict radical changes after official acknowledgement that at least some UFOs are intelligently controlled physical craft from somewhere besides Earth.

Reading like a Think-Tank report on the future, *A.D. After Disclosure* isn't afraid to make specific predictions based on past responses to other crises, including:

- The Presidential announcement will come on a Friday afternoon after the
- Stock Market has closed for the week.
- Congress will hold Watergate-style hearings and ask secret-keepers "What did you know and when did you know it?"
- The first decade A.D. (After Disclosure) will be like a high-tech 1960s, spawning massive cultural and societal change.
- There will be winners and losers in religion, business, government and media.
- Abductees will file a class action suit against the governments for withholding critical information.
- All the textbooks on planet Earth — from history to science — will need an immediate review.

Will Disclosure lead to social panic and chaos, or will it usher in a new era of unity, peace and technology? For certain, it will be a game-changing event of monumental proportions.
