

# GHOSTS, SPIRITS & HAUNTINGS

---

By Joshua P. Warren

## BOOK SUMMARY

### *Understanding Physical Full-Bodied Apparitions*

Starting with stunning, new images of full-bodied ghosts, **Joshua P. Warren** carefully explores precisely what they are. A subject generally shrouded in philosophical musing takes on hard physics. What is that particular point at which your body, and mind, interface with a figure from elsewhere? How does your body connect with theirs in a corporeal way? During those fleeting moments, face-to-face with a specter, what are you actually seeing? Where are they? And will you end up there, too, someday? These are the most difficult questions in the field, pushing the boundary of science and human evolution. As Director of the unique **L.E.M.U.R.**

**Lab**, where theories are tested, and a man who has devoted his life to exploring haunts in the field, Warren presents the most concise, and rock-solid case for what impressive ghosts are as they stand before you.

# ABOUT THE AUTHOR

---

## Joshua P. Warren

JOSHUA P. WARREN was born in Asheville, North Carolina and has lived in the Blue Ridge Mountains his entire life. At the age of 13, he wrote his first published book. Since then he has had ten more books published, including the regional best-seller, *Haunted Asheville*, and *How to Hunt Ghosts* and is the president of his multimedia productions company, Shadowbox Enterprises, LLC. A winner of the University of North Carolina Thomas Wolfe Award for Fiction, he wrote columns for the *Asheville Citizen-Times* from 1992 to 1995. His first novel, *The*

*Evil in Asheville*, was released in 2000.

An internationally-recognized expert on paranormal research, Warren was hired by the famous Grove Park Inn Resort to be the first person to officially investigate the Pink Lady apparition in 1995 (the same year he founded L.E.M.U.R. paranormal investigations, of which he is president). Warren also led the expedition that captured the first known footage of the elusive Brown Mountain Lights, eventually resulting in scientific breakthroughs, via experiments Warren led in the lab, that help explain most of the lights and many mysterious, natural plasmas (such as ball lightning) that occur around the world.

Warren has appeared on the National Geographic Channel, History Channel, Discovery Channel, Travel Channel, Sci-Fi, Animal Planet, and numerous networks affiliates of NPR, ABC, NBC, and CBS. He is frequently asked to be a guest on radio shows around the world, especially *Coast to Coast AM* with George Noory/Art Bell. Warren is also an international award-winning filmmaker (including Hollywood.com's Top Underground Filmmaker of 1998), having worked on many sets, such as Warner Brother's *My Fellow Americans*, Universal's *Patch Adams*, *Paradise Falls*, *Inbred Rednecks*, *Songcatcher*, and *Sinkhole*.

# INTERVIEW QUESTIONS

## *Ghosts, Spirits & Hauntings*

By Joshua P. Warren

- What is a ghost?
- What is a full-bodied apparition?
- How do apparitions take on physical properties?
- What creates a ghost?
- What is special about the Patrick Burke footage?
- What is special about the Richard Liebeck photo?
- Is there any evidence that ghosts are connected to living bodies?
- How do apparitions intersect with living bodies?
- What can we learn about specters from quantum physics?
- Where are ghosts?
- Why can some see phantoms while others cannot?
- How do you feel about modern paranormal investigations presented on TV?
- Is there life after death?
- How does the psychomanteum technique allow others to see ghosts?
- Have you ever seen a ghost?
- What is the relationship between phantoms and time?
- Why are some places more haunted than others?
- How do you address critics and debunkers?
- Why is this a great time to be involved with paranormal research?
- What experiments have you done in an attempt to create a ghost?
