

THE NEW PLANETARY REALITY

By Imre Vallyon

Excerpt: The Past Avatāra

To understand the mystery of the Coming Avatāra, you first have to understand the past before you can understand what is happening now.

The Sanskrit word Avatāra means “one who is coming down”—*ava* means “down” and *tāra* means “coming” or “emerging”. So an Avatāra is an entity that has emerged or come down from some higher realm or plane of existence. That higher realm may be the Causal World, the Buddhist World, Nirvāṇa or even the realms beyond Nirvāṇa. Over the last 200,000 years, Avatāra® have come down to teach people many times, in ancient Persia, China, Egypt, Greece and on several occasions in India.

You will have heard of the Buddha, the Christ, Krishna, Rama, Lao Tzu, Quan Yin, Isis, Zoroaster, Moses and Mohammed—just a few of the many Gurus, Masters and Spiritual Teachers who have consciously incarnated from the higher realms in order to teach Humanity and help our spiritual evolution. Historically speaking, the influence of these Great Beings was conditional; they only influenced a certain localized area, bringing a new understanding, a new impulse towards the creation of a better civilization and the renewal of that part of the planet.

It is important to understand that we’re talking about energies, not just a teaching or philosophical ideas. Unfortunately, people refer to what Jesus said in the Sermon on the Mount or what Lao Tzu wrote in the Tao Te Ching as if they were intellectual ideas on how to live in society. The work of the Avatāra® is not just to bring down clever sayings or make rules about what people should or should not do, it is about real *energies*. Christ brought in the powerful energy of Cosmic Love; Buddha brought in the energy of Wisdom, an incredibly bright luminous Mind-energy. Lao Tzu worked with another aspect of the Wisdom-energy. Every Avatāra came in with a specific mission to stimulate a particular race in a specific way, and it was the invisible waves of energy which they brought down with them—their amazing *energy-work*—that changed human consciousness at that time.

So, we have established that Avatāra® bring down energy to change the structure of society at the time and place where they are born. The mystery of the *Coming Avatāra*, however, is very profound because it is something completely different from what has happened in the past. Now, our planet has reached a crisis point and it is necessary for a *Planetary Avatāra* to come and help us.

The Coming Avatāra

The Earth Planetary Avatāra (the Coming Avatāra) is a vast Cosmic Intelligence that is able to

embrace the visible and invisible dimensions of the planet—the Physical, Astral, Mental, Buddhic and Nirvāṇic Worlds. It has been influencing the planet since about 1875, and by “coming” we mean that it is within the auric energy-field (the invisible dimensions) of the planet and its influence will increase as it penetrates the physical dimension. The New Avatāra is coming gradually and, as the pressure increases over the next two or three hundred years, more and more people will have the opportunity to awaken to the Spiritual Life and the Spiritual Reality, to the fact that they are spiritual beings walking on this planet.

The Coming Avatāra is *global* in nature, concerned with the entire planetary life rather than only the stimulation of a limited locality. Accordingly, the New Avatāra is not going to be a person born in India, China or America; it is not coming to one nation or one religion like the Jewish Messiah (which by the way is the Hebrew word for “Avatāra”). Naturally, everybody wants the Avatāra to come from their religion, but that will not happen. The whole planet is being stimulated and the energy-field of the Avatāra embraces every field of knowledge—science, art, politics, social science, medicine, education—anywhere there is a consciousness that can be moved.

The Human Dilemma

Every religious tradition refers to a Divine Being, an incarnation of the Deity who is supposed to come and change the world. But herein lies the human dilemma: for thousands of years the human reaction to any new manifestation or understanding has been to reject or destroy it. So as the Avatāric influence increases, there will be massive confusion in society. Some will realize that the phenomena and the energy of change are real while others will deny them, claiming they are hallucinations or political conspiracies.

In the next one or two hundred years, or even earlier, there could be a massive clash in society between those who want to move into the New Reality with open eyes and open minds and those who want to close themselves down even more because they are afraid of the Truth. This clash could have a religious cause, because there are certain fundamentalist religious groups in the world that are back in the fourteenth century and cannot adapt to the New Vibration. They will oppose it with all their strength and weapons. The world could be in a huge mess.

The Choice Is Ours

Human beings were given free will and this means that according to Cosmic Law entities that are more evolved than us must not interfere in our affairs. Accordingly, the New Planetary Avatāra cannot force people to change. It will give out a certain energy stream and allow people to go with it or not. This is where the human Teachers come in because the Spiritual Teachers who work along this line will help people understand what is happening and what they are supposed to be doing about it. They will explain the beauty, grandeur and vastness and the amazing possibilities of the Coming Avatāra, and through that understanding people can change and help the world. There will always be those who cannot or do not want to be stimulated, the many materialists who refuse to believe anything they cannot see, hear or touch, but there will also be many people able to sense the stimulating, high-frequency energy of the Avatāra.

What is coming is normal—normal because it is part of the Divine Plan, not something a

religious authority decided to do. It is a vast cosmic event beyond any religion, any political party, any country—beyond anything.

The new energy of the Coming Avatāra is getting stronger and stronger every year and more and more people will be tuning into this energy-field and will be able to use it. As this stimulation increases over the next two or three hundred years, we will have a completely different society than ever before, completely different than any utopia or ideal society dreamed up by writers. In other words, we have a golden opportunity that has never existed on the planet before: to come into a new world, an unimaginable new reality on this planet Earth; *or* we can come into an unimaginable disaster. The outcome depends on whether humans can go beyond their own personal horizon, transcend the limitations of their consciousness and embrace the new and larger possibilities of the Coming Avatāra.
