

INTERVIEW QUESTIONS

Pyramids and the Pentagon

By Nick Redfern

- Can you tell us what your new book, *The Pyramids and the Pentagon*, is about?
- How did the CIA become interested in, and involved in, the 1947 discovery of the Dead Sea Scrolls?
- Why has the U.S. Government taken so much secret interest in the story of Noah's Ark?
- Has the government found the remains of the Ark, and if so, is it really just an old ship, or as some believe – even in government – the remains of an ancient, crashed UFO?
- What is the story behind the Pentagon's research to determine if the Pyramids of Egypt, and other massive stone structures from the past, were constructed using levitation and/or anti-gravity?
- Has the government been actively researching ancient anti-gravity?
- Did the legendary Robert Oppenheimer, the brains behind the atomic-bomb, have secret knowledge of a localized nuclear war fought in India, possibly tens of thousands of years ago?
- Is it possible the Pentagon knows that, in the very distant past, civilizations not unlike ours existed and ultimately destroyed themselves, as we may one day do?
- Can you explain what NASA, and other agencies of government, has learned about the startling connections between the people of ancient Egypt and the famous "Face on Mars"?
- Does evidence exist to suggest a direct connection in the distant past between the pharaohs of Egypt and a now-extinct Martian civilization?
- What prompted the FBI to clandestinely investigate the claims of a 1950s-era UFO researcher and witness, George Van Tassel, that aliens seeded our earliest civilizations?
- Was UFO and ancient-mysteries researcher Morris Jessup murdered for what he uncovered relative to anti-gravity technology in the hands of the ancients?

- What is the link between the National Security Agency, Crop Circles, and the Mayan prophecies concerning the 2012 “End of the World” controversy?
- Why did the Pentagon open a file on Edgar Cayce, a well-known psychic and author, and his research into the tales and legends of Atlantis?
- Why did the British Government secretly investigate the mysteries of Stonehenge?
- The Nazis were also deeply interested in ancient artifacts and religious relics. Can you tell us about that?
- What are your views on why government agencies have taken such a lengthy, in-depth interest in issues concerning archaeological mysteries, ancient relics, religious artifacts, and so-called “ancient astronauts”?
- Is official, secret research into mysteries of the past still ongoing?
- What do you hope publication of the book will achieve?
- Do you think there will be any sort of official response to the book?
