

# SECRETS OF UFO PHENOMENA REVEALED

## Will High-Tech ET Intelligence Determine Our Future?

*“At the forefront of a new generation of UFOlogists, Micah Hanks is someone who isn’t afraid to tackle new paradigms, ideas, and theories. The future of flying saucer seeking is in good hands!”*

**San Francisco, CA (December 22, 2012)** — A new book with a long title is loaded with hair raising information and substantive theories about UFOs.

By prominent UFO/paranormal researcher, popular media guest and author, Micah Hanks, *The UFO Singularity: Why Are Past Unexplained Phenomena Changing Our Future? Where Will Transcending the Bounds of Current Thinking Lead? How near is the Singularity?* contains startling revelations about what we can expect from contact with UFOs.

Hanks reveals the secrets that UFO phenomena can tell us about intelligence that transcends and expands what humans now know. And, in his inimitable, provocative and controversial style, he presents well-backed theories of the origins of such intelligence.

In the several riveting chapters, the author discusses the history of UFO sightings from the 1890s through WWII and into the 21st century; and he interviews numerous witnesses. He also deals with super-human intelligence; post-singularity aliens and how they might exist and transport themselves and interstellar spam hypotheses with regard to the manipulation of human body/mind/spirit by alien technology. A few of the challenging metaphysical questions and latest scientific breakthroughs that Hanks presents in *The UFO Singularity*:

- What is the singularity and how does it relate to UFOs?
- What will human life be like in 2112?
- Could some UFOs be from our human plane, and/or are UFOs actually time travelers from our future?
- Are current scientific trends leading us to the advanced technology that we have observed in various UFO reports?
- Are there other ways in which UFOs could be considered extraterrestrial visitors, even if they didn’t get here via interplanetary space flight?

The author writes, "Our world is full of enduring mysteries, but with time—whether or not it is within my own lifetime—I predict they will begin to overlap with our scientific understanding of the cosmos. These revelations may be ruled out by some as misconceptions or outright hoaxes, yet it is my hope to share these fascinating subjects with you and allow you to draw your own conclusions."

### ***About the author***
