

# THE UNFOLDMENT

*By Neil Kramer*

## BOOK SUMMARY

*The Unfoldment* is a spiritual toolkit that helps create a space for all those who seek to bring greater clarity, power and transformation into their daily life. It asks real questions about the world and our place in it. Not just the big things, but the little things too. How do sexuality, grocery shopping and language relate to metaphysics, the divine and ultimate reality? It brings the big picture into the little picture. It presents a unique system of personal growth and realization that is founded in first-hand experience and aimed at practical application, rather than chin-stroking theorizing. It presents life itself as the instrument for transformation.

Each chapter presents key principles in empowerment through gnosis (direct personal encounters with knowledge). Through exploring powerful metaphysical and mystical ideas, the reader is given the tools to unfold their own higher authority in their own lives. Many esoteric teachings, previously encoded in obscure symbolism and arcane terminology, are decrypted, crystallized and presented in direct, accessible language for everyone to grasp and make use of.

In a rapidly transforming world, the rules are changing faster than most people can keep up with. More than ever before, the modern American and European reader wants something that will actually help them – help them to find balance, see more clearly, take control and create a better life. The old big-daddy style of government and the corresponding cultural materialism are no longer satisfactory. The mainstream news is full of politics, war, finance, entertainment and sport, but no answers. It leaves people nervous about their place in the world. In this milieu, *The Unfoldment* brings a perfectly timed message of spiritual wisdom that embraces growth, claims power and unswervingly champions the sacred adventure of the human journey.
